M.A. Ford® High Performance Drills

M.A. Ford® Cyclone and Twister® series HP drills are available for many of your machining needs. We have everything from spot drills to an extra long drill length that works well in all deep hole drilling applications. The Twister® and Cyclone series offers a range of drills that are designed for high performance drilling for a broad range of material.

Twister®

The Twister® series includes:

- Twister® XD
- Twister® Micro XD
- Twister® HPD
- Twister® MD
- Twister® AL
- Twister® Micro-Tuff®

CYCLONE

The Cyclone series includes:

- Cyclone XD
- Cyclone DA

Find out more about these HP Drill series below.

Mastercam®

Tool Library

Keep an eye out for the Mastercam® link under **Resources** on our website. Mastercam® is a leading edge computer aided machining software developer. A lot of our customers use CAM to program parts with 3D models which then generates the G/M code that the CNC machine reads to machine the part.

This means soon you will have the ability to download tool specs from our Mastercam® tool library thus eliminating the need to have to draw up each individual tool you use, simplifying the programming process.
